8,000 in Cleveland Hall Only
Third of Surging Crowd.Charges Wilson With Misuse of
National Guards.

Cleveland, Nov. 3.—Col. Theodore Roosevelt brought the 8,000 persons inside the Central armory to their feet here last night when, in commenting on President Wilson's speech in Buffalo, he declared that President Wilson had put the foreign relations of the United States into politics. The crowd inside the armory was a scant one-third of the more than 25,000 who jammed about the entrances to the building, striving to gain admittance. Ex-Senator Theodore E. Burton and local Republican leaders spoke from motor trucks to those in the streets until Colonel Roosevelt concluded his main address and came out of the hall to speak briefly to those waiting.

Colonel Roosevelt referred scathingly to the alleged remarks of Secretary of War Baker concerning the soldiers in Washington's army, and told the big audience he was glad to present his plea for support for Charles E. Hughes. In referring to President Wilson's Buffalo address and the

Unless Allies Step in Greeks
Will Have Civil War.Italy Forcing Terrific Charges
South of Goritz.

London, Nov. 3.—A pitched battle between Greek royalist and revolutionary troops is imminent unless the allied forces at Saloniki intervene immediately. A Greek force, estimated at 4,000, was thirty miles south of Katerina when the Venizelist soldiers drove the royalist garrison out of the town. Athens dispatches reported today that King Constantine has ordered these troops to Amantokio. The Venizelist troops, which are being reinforced by being reinforced from Salonika and are reported well supplied with machine guns.

In several parts of Thessaly parties of revolutionary troops, coming in contact with the royalist forces, have exchanged derisive shouts and at Salona recently the king's soldiers attacked some of the Venizelists.

It is believed here that if a battle is fought at Katerina, it will result in general engagements that will plunge Greece into civil war.

Break Thru Austro Lines.

Rome, Nov. 3.—Consecutive waves of Italian infantry are crashing against the Austrian lines south of Goritz in one of the most powerful blows struck by General Cadorna since Italy entered the war.

Following up their successes south-east of Goritz, the Italians have occupied a mile of the Goritz-Vogersko railway and are battling on the heights near Komperloce.

The opinion prevails here that General Cadorna is preparing to strike a death blow.
